# Investigation Testing

When microbiological issues arise and further work is needed, it is crucial that the right analysis is carried out to allow food business operators to respond quickly and appropriately to the situation.

This webinar will explore the further testing that ALS offers and how these services can assist in effectively investigating and addressing the issue at hand.

In this session we cover:

- MALDI-TOF MS strain typing
- Salmonella serotyping
- Bacterial & fungal identifications
- Bespoke validations and more.

- Date: 2<sup>nd</sup> February 2023
- Duration: 60 minutes including Q&A
- Speaker: Beth Draper - ALS Microbiology Specialist
- Cost: £45 + VAT (per person)
- Start time: 14:00 GMT
