

E.coli in 60 minutes

E.coli is sometimes found in food items and food factory water and is commonly used in the food industry as an indicator of faecal contamination.

This short course is for those of you who want a practical knowledge about E.coli and STEC E.coli, what is their significance in food or the food factory and what illness can they cause.

How do the laboratory test for this group of organisms and what those results could indicate.

Join us for an insight into microbiology, E.coli and STEC E.coli.

Includes time for you to ask any questions you have.

» Duration: 60 minutes including Q&A and discussion.

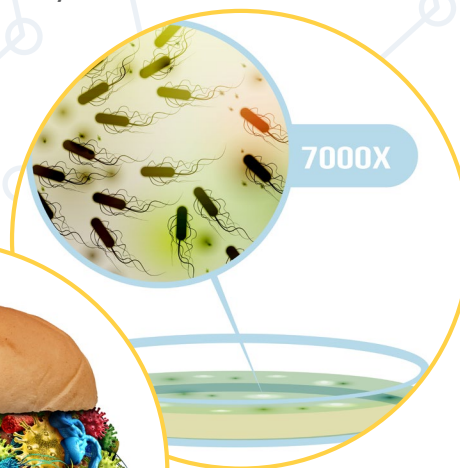

» Speaker: Keith Watkins – ALS Technical Specialist

» Date: 10th August 2021

» Time: 14:00

» Cost: £30+VAT

You will receive a certificate of attendance for your participation ▼
