

# MRL Exceedance - Panic?

right solutions.  
right partner.

## Overview:

Pesticides are found in everyday food items and should be adhering to the Maximum Residue Levels (MRL). During this short webinar we tackle the dreaded subject of MRL exceedance.

I am sure you have been there, usually on a Friday afternoon, receive a report with an MRL exceedance. What do you do? Hit the panic button, stop production or even worse recall all items!

Without having the right knowledge, it is difficult to make the correct decision. This webinar aims to provide you with useful information such as, likely causes, next steps and possible consumer risks. Thus, providing you with the right knowledge to make an informed decision.

## Objectives:

- Where MRL comes from and different legislations
- What steps have lab taken
- What steps should you take
- Possible causes
- Latest data and trends on MRL exceedances

- Date: 18th May 2022
- Duration: 60 minutes including Q&A
- Speaker: Buddhi Dias - ALS Contaminant Laboratory Manager
- Cost: £45 + VAT
- Start time: 14:00 GMT
